- The first few days of classes will include training and support for students on how to access classes, submit assignments, collaborate with peers and contact teachers.
- All classes will begin on time with attendance, followed by a live session with the teacher using Google Meet. The length of the live session may vary depending on the focus of the lesson, it's content and the needs of students.
- After each live session, students will be given time to work to complete tasks/assignments.
- **All live sessions will be recorded and posted daily in Canvas for students who are not able to attend a class in real time or need to review material that was missed.** This allows for flexibility for families who need it and/or if a student experiences technical difficulty during the day.
- Coursework and participation in live lessons by students (or recorded videos) happens daily.
- At least one day in the week teachers will prioritize (20 - 40 minutes in each period) for personalized learning support with targeted groups of students.
- Office hours for all teachers will be from 8:00 - 9:00 every Friday. Teachers will be available at the beginning of each period to interact with students, answer their questions and provide clarity on learning expectations for the day.
